

I am a current listener to KLOVE and do not want my service to be interrupted. I have listened to KLOVE for 5 years, including a period when I lived in a different state. KLOVE is encouraging to me. It provides both local and national news updates. The local updates it provides contain church related information that no other station will provide. I do not believe the quality of KLOVE can be matched by a local station. In the Memphis market, we previously had local radio stations that were similar to KLOVE, but the quality of the broadcasts were terrible. The stations broadcasted over weak signals and the advertising was low-budget. Please do not adversely affect Klove's broadcasts.
